Above CCM and BAUER ,Warrior models stick
Both **PRO STOCK** style stick and **RETAIL STYLE** sticks Both available

- Bauer Supreme Ultrasonic (\$349)
Supreme sticks satisfy puck-handling wizards and perimeter players who like to keep the puck close to their bodies

- Bauer Vapor flylite (\$359)
Vapor Stick Line was engineered for the sniper looking for the quickest shot release. The Bauer Vapor HyperLite Stick is the fastest release on the market - perfect for snipers looking to get off a quick shot

- Bauer Vapor Hyperlite - S21 (\$389)

- Bauer Nexus Geo (\$297)

Nexus Geo is taking Nexus performance to the next level. Coming in at 390 grams, the Geo matches the weight of the Vapor FlyLite. This stick gives the player ultimate versatility and the ability to do anything from anywhere on the ice. The highlight feature is ER SPINETECH, a 5-sided shaft geometry that let us remove excess carbon fiber layers in the key loading area of the stick while maintaining a standard Nexus mid-kick point

- Bauer Nexus ADV (\$399) - S22 NEXUS ADV redefines stick performance. Not only is this the lightest NEXUS stick ever created, but it is also loaded with a revolutionary technology that will give players a level of confidence they have never experienced when shooting the puck. <https://www.bauer.com/en-CA/Nexus-ADV-Learn-More-Page.html>
